

FC40R High-Performance Return Grille Filter

The FC40R air filter offers solutions for today's filtration challenges — and Honeywell, the trusted name in home comfort and air quality, brings it to you.

The FC40R features a special design that allows it to fit in the same space¹ as a standard 1" return grille filter, while offering filtration that's up to forty times more effective (versus 1" fiberglass filters²). The end result: thoroughly clean air down to 0.3 microns — you'll trap dust, pet dander, pollen, mold, bacteria and other allergens.

Cleaner Air With Less Effort.

Industry-exclusive 4" high-performance media air filter.

Longer lasting because you only have to change it once a year versus monthly to quarterly changes.

Superior Performance that captures 15 times more 0.3 micron particles than a typical 1-inch fiberglass filter

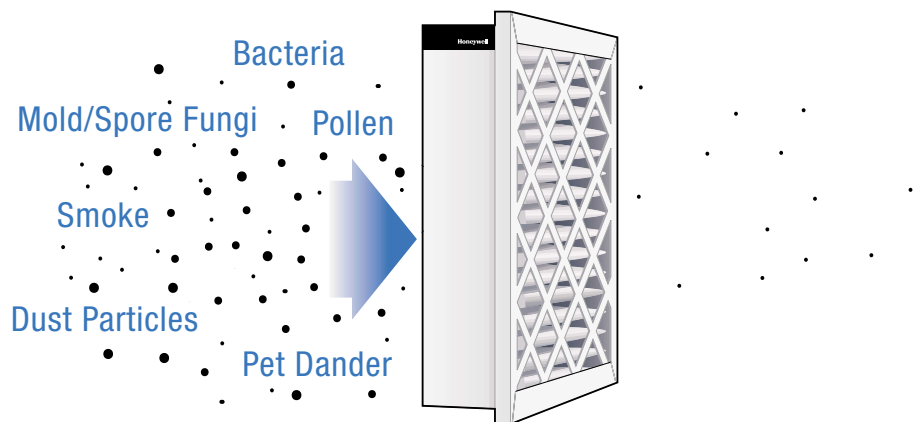

Perfect fit for most 1-inch residential return grilles

Increases efficiency and puts less strain on your heating/cooling equipment

Save energy by reducing buildup on heat exchangers and cooling coils

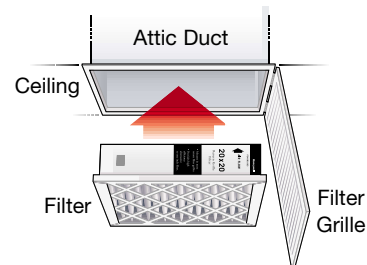

TYPICAL HOUSEHOLD PARTICLES

Honeywell air cleaner captures **15 times** more 0.3 micron particles than a typical 1-inch fiberglass filter.
